Nine Yana  
Éditions. Biblia Impex

The original version of this book is a  
transcription of teachings whereby Khenpo  
Rinpoche presented the nine vehicles (Skt.  
Yana) within the gradual path that leads to  
Dzogchen, namely the peak of the spiritual  
realization. Here we have reached out the  
very heart of the highest buddhist philosophy  
that is presented in a very accessible and  
lively way meant for the public at large as well  
as advanced practitioners.
